

KAISPE Flex  
Payroll add-on is  
a cloud based  
integrated, rule  
and formula-  
based tax engine  
that handles  
simple to  
complex payroll  
tax computations

*Powered by Microsoft  
Dynamics 365 F&O*

- **Highly flexible tax engine to calculate payroll tax deductions and contributions as part of payroll run**
- **Define taxation rules and sub rules as per employee personal details, earning codes, tax components etc.**
- **Associate rules with formulas with the provision to have other recursive formulas within a formula**
- **End to end support for payroll processing with source document distribution, tax authority invoicing etc.**
